This exposes students to multi-modal reading materials. One printed book is for leisure reading and wiseman for academic purpose. One to two printed books are for each form and students will do oral presentation in the reading period. The budget we would like to apply for should be used to buy printed books. Then next cohort students can use the same book again. Also, we would like to use the budget to invite some professional speakers from International literary festival to conduct after-school reading workshops.
